{ DATA LOG ENTRY 11172012 }

When I finished up the first Harmony of a Hunter, I swore I would NEVER do another album like it again due to how demanding it was.

However, I find myself here again with an expansion to Harmony of a Hunter, that has been well supported by musicians from the original album as well as new musicians making their debut.
I can once again say that it has been an honour and privilege to have worked with an amazingly talented team who have allowed this expansion to exist.

An extra special thanks has to be given to Falcool, our assistant director for his dedication, honesty and support throughout the creation of Harmony of a Hunter: 101% Run.

Thanks to all Harmony of a Hunter fans that have continued to offer their support, this is for you :)

DARREN KERWIN
PROJECT DIRECTOR
